**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

**Claims 1 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over**

**Verschueren US Patent 5612285 in view of Thornton US Patent 4315193**

**Regarding claim 1**, Verschueren discloses a high pressure discharge lamp comprising: a discharge vessel which is enveloped with clearance by an outer bulb provided with a lamp cap, which outer bulb is translucent, characterized in that the outer bulb is substantially tubular in shape (for example, see elements 3,1,2, Fig 1).

Verschueren does not disclose that the outer bulb is provided with a light-scattering layer.

Thornton discloses a discharge lamp wherein the outer bulb is provided with a light-scattering layer (for example, see element 42, Fig 3, see column 4, lines 18-25)

Accordingly, it would have been obvious to one of ordinary skill in the art at the time the invention was made to have provided a light-scattering layer on the outer bulb as taught by Thornton in the discharge lamp assembly of Verschueren for the purpose of improving color rendition of the discharge lamp (cited by Thornton column 4, lines 26-62).

**Regarding claim 3**, forming an electrostatic coating by using a light scattering layer is a known process in the art (cited by Thornton column 3, lines 67- column 4, line 2).

***Response to Arguments***

Applicant's arguments with respect to claims 1 and 3 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
